

SELB Route (EL)

The EL route includes the skywalk between EL and LD.

The skywalk is section 5 of this building/route.

Section 5 has only east and west aspects.

There are shrubberies in some locations that you will need to inspect beneath (if you can).

I'm not sure that you can actually access this little section, but examine it if you can. If you cannot, don't worry: just examine the main loading dock area. Be careful of trucks and other vehicles in the loading dock!
