

The upper floors of the Library jut out and create an overhang above the ground floor. You will need to inspect both along the ground floor perimeter and the "outer perimeter" created by the upper floors.

Start this route at the corner between the Library-SPEA breezeway.

End the route by inspecting the terrace along the Library-SPEA breezeway. You cannot cross over the building.

\* START here

\* END here

Balcony can be accessed from the third floor. Midday route responsibility

Go up the steps to finish out the route by inspecting the upper terrace. The upper terrace is section 5. Consider section 5 to have only a north and south face.
